Cen Ten & Cas Cade *organic* *NEIPA*

Keldling Brew

This is a rather light bodied - strong - NEIPA.
 Some classic American IPA hops have been used to make it spicy and a bit floral. Bitterness and funky notes emerge the warmer it gets.
 It is an organic beer to please your health and to support suppliers of organic ingredients.
 As always, let me know what you think... Cheers!

"...spicy citrus flavor and aroma with a touch of pine..."
 "...Centennial = floral, Cascade = citrusy..."
 "...more of a floral aroma with a hint of pine and freshness..."
